

in its presentation, the MOU, as well as the Compounding Section 205A of the Modernization Act, severely restricts the rights of the physicians and patients to obtain healthcare products from the provider of their choice. It also infringes on the rights of compounding pharmacists to serve the public's medical needs. As a healthcare consumer, there should be no restrictions to the delivery of a compounded medication prescribed for me, regardless of where I may live or may travel. The MOU must be amended.

Comments:

I need to use compounded medication daily
It's a vital product for my health. Nothing else
has worked. This legislation would severely
restrict my ability to obtain necessary medicine
otherwise unavailable.
